DETAILED ACTION

This office action is in response to the amendment received October 9, 2003. In accordance with the amendment, claims 5-13 have been canceled; and new claims 21-32 have been added. Claims 16-20 have previously been indicated as being allowable over the relevant prior art.

Allowable Subject Matter

1. Claims 16-32 are allowed. The following is an examiner's statement of reasons for allowance: the relevant prior art does not teach or reasonably disclose, in addition to an optical waveguide module with a first connection member, optical waveguide chip, second connection member, and press member, having a projecting tip of a fiber and a third end face of a second connection member are separated from each other in a directions perpendicular to the connecting direction (see Fig. 13 for perpendicular directional movement related to new claims 21-32). The closest prior art of record (U.S.P. No. 6,257,769 to Watanabe et al.) does not teach or reasonably suggest a connection in which the tip and end face are separated from each other in a directions perpendicular to the connecting direction.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
